Making them 100% Sanitizable for
best health and safety of your team.

As the standing mat category has developed, it has matured, into three categories:

Good, Better and Best.

Each group has value to the Anti-Fatigue Mat category. Consumers in search of the best will spend above average for a standing mat that outperforms the others.

- Some relief from hard floor surfaces
- Minimal anti-fatigue values and durability
- Cheap toxic compositions, (usually off-shore) use plasticizers and fillers that quickly breakdown
- Edges often curl and tear
- Top surfaces often wear through or bubble
- Little or meaningless warranties
- Short life span, high replacement costs

BEST
